

SRI SATHYA SAI CENTER

86th Birthday Celebrations of Bhagawan Sri Sathya Sai Baba

23rd November 2011

“Arigatou Swami”

*We should not hate any religion. The followers of all religions should behave like brothers and sisters. Practice such an ideal and give happiness to Swami. Many foreigners said, "Happy Birthday, Happy Birthday" in the morning. Swami is always happy. Swami does not need your happiness. **You be happy.** Happiness is union with God. If you want to be happy, join God. Then you can be happy.*

You should spend a happy time in unity, coordination, and integration with God. You should experience divinity in all. That is true bliss. It is not happiness if it is from comforts and conveniences. They are just passing clouds, coming and going. You should achieve the bliss that neither comes nor goes. Love is the only path to reach that goal of bliss.
